Edition changes: updated so that it only covers the clean rooms again, ie. removed NGI labs.

Cleaning list for lab areas

The linked document is a template used by the clean room responsible to make a new cleaning list for the clean rooms. The template is copied and named with the starting date/week as a prefix i.e. 2017 from week 12_1359-6 Cleaning list for lab areas. The cleaning list is saved in the Google Drive folder: _Quality assurance system > Lists, ask the QA group to place it there as the folder is read-only. The list is to be posted on the wall next to the entrance door to the clean rooms and sent out by email to the concerned lab staff.

The paper list should be archived in the fireproof safety cabinet in the recycling room A3200.

For more information and cleaning instructions see document *1156 Clean rooms*.
